

Gsdmd → Tmem106a: RNA architecture and a predicted fold

Reference-reconstructed RNA and protein sequence; the candidate fold remains low confidence.

chr15:75,735,477 (+) → chr11:101,479,679 (+)

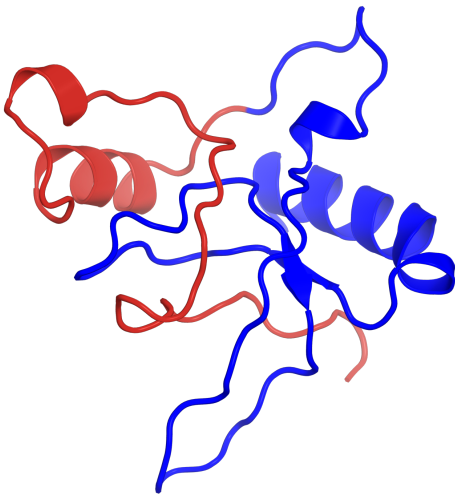

ENSMUST00000023238.6 / ENSMUST00000039581.14

118-aa reconstructed protein architecture

Blue: in-frame Gsdmd sequence. Red: novel out-of-frame Tmem106a-derived C terminus.

Candidate fold · predicted

Low confidence · mean pLDDT 48.70
